### SUMMARY:

Goal driven, self-motivated individual, with a solid background in Internet based technology, and has worked in all functions of software development. More than two decades of experience with extensive knowledge of client-side technologies, server system analysis, deployment and management of large-scale production environments.

### HIGHLIGHTS:

Throughout my career I have participated in the development of projects for companies - AXS, GM, Disney, Intuit, Qualcomm, Johnson & Johnson, Spin Master, American Family Insurance, Leidos, Mindbody, Dexcom, Pokemon, NFL, UltraViolet, J. Walter Thompson, WPP, and USMC.

- Responsible for the implementation of Mindbody consumer marketplace Map/Login/Sign-up integration, React location-based routing system, Webdriver.IO E2E automation suite, and SEO web crawler SPA (Single-page Application) JavaScript prerendering service.
- Coordinated with IT network/security to ensure migration of critical Production systems. Notably, Akamai/CloudFlare and the migration of existing AWS services (ElasticBeanstalk, RDS, ElasticCache) to a new VPC network and region/zone.
- Responsible for the implementation of a COPPA compliant social network Bakugan Dimensions MMOPG (Massively Multiplayer Online Player Game) with over half million users.
- Responsible for architecture and systems related to multiplayer online PC game SwypeOut.
- Operated and scaled a global, 24/7, high availability hosting solutions serving millions of monthly visits from more than 50 countries.

### FUTURE OPPORTUNITIES:

Software developer/leadership role within the consumer marketing & web services industry. The ideal role would involve undertaking a technology-leaning part of the organization. Said role would be challenged with the creation and deployment of strategies, products and services that align and compliment the growth targets of the business.

### GEOGRAPHIC PREFERENCE:

At the present time I am seeking a WFH (remote) position in the San Diego area. However, I have not ruled out re-location provided that the opportunity is challenging, has potential for growth, and is reasonably compensated.
