MARC S. BROOKS

744 G ST, Unit 102, San Diego, California 92101
Mobile: 619.871.7601 · Email: marc@mbrooks.info · Website: https://mbrooks.info

SUMMARY:

Goal driven, self-motivated individual, with a solid background in Internet based technology, and has worked in all functions of software development. More than two decades of experience with extensive knowledge of client-side technologies, server system analysis, deployment and management of large-scale production environments.

HIGHLIGHTS:

Throughout my career I have participated in the development of projects for companies - AXS, GM, Disney, Intuit, Qualcomm, Johnson & Johnson, Spin Master, American Family Insurance, Leidos, Mindbody, Dexcom, Pokemon, NFL, UltraViolet, J. Walter Thompson, WPP, and USMC.

- Responsible for the implementation of Mindbody consumer marketplace Map/Login/Sign-up integration, React location-based routing system, Webdriver.IO E2E automation suite, and SEO web crawler SPA (Single-page Application) JavaScript prerendering service.
- Coordinated with IT network/security to ensure migration of critical Production systems. Notably, Akamai/CloudFlare and the migration of existing AWS services (ElasticBeanstalk, RDS, ElasticCache) to a new VPC network, region/zone.
- Responsible for the implementation of a COPPA compliant social network Bakugan Dimensions MMOPG with over half million users.
- Responsible for architecture and systems related to multiplayer online PC game SwypeOut.
- Operated and scaled a global, 24/7, high availability hosting solutions serving millions of monthly visits from more than 50 countries.

FUTURE OPPORTUNITIES:

Software developer/leadership role within the consumer marketing & web services industry. The ideal role would involve undertaking a technology-leaning part of the organization. Said role would be challenged with the creation and deployment of strategies, products and services that align and compliment the growth targets of the business.

GEOGRAPHIC PREFERENCE:

At the present time I am seeking a WFH (remote) position in the San Diego area. However, I have not ruled out re-location provided that the opportunity is challenging, has potential for growth, and is reasonably compensated.

!! ATTENTION !!

If you're going to *waste my time* with pre-employment testing (CCAT, white board, puzzles, etc..), even though *you have access* to two decades of projects (and code) I manage online, I'm going to make a hard pass – not interested.

No FAANGs or **recruiters**, please.
